PROJECTS

TaskFlow **github.com/Samigu8/TaskFlow**

- Built and deployed a fullstack task management app with React, Node.js/Express, PostgreSQL, and Prisma, using JWT authentication, bcrypt password hashing, and per-user ownership checks on every task
- Added search, filtering, and sorting to the REST API and a responsive React interface styled with Tailwind CSS
- Wrote backend integration tests and Playwright end-to-end tests, with GitHub Actions CI, Docker containerization, and deployment on Render

Our Story **github.com/Samigu8/Our-Story**

- Built and deployed a fullstack web application where users create accounts, authenticate with JWT, and upload pictures and descriptions, deployed on Render
- Developed REST API endpoints using Node.js and Express.js and stored application data in PostgreSQL
- Built reusable frontend components and managed changes with Git and GitHub pull requests

Portfolio Website

portfolio-demo-cs-220-git-main-samuels-projects-010b2b22.vercel.app

- Built and deployed a personal portfolio website on Vercel using TypeScript and frontend development skills, showcasing coding projects

EXPERIENCE

Student Services Representative, Graduation Agent 2025 – 2026
BYU-Pathway Worldwide *Salt Lake City, Utah*

- Used Anthology and 3 additional academic systems to analyze graduation requirements and maintain accurate records for 200+ students
- Compared student progress against expected degree configurations to identify gaps and guide 8-10 students per shift toward timely graduation
- Collaborated with a team of 10 to review records and confirm requirements were met accurately

Missionary 2022 – 2024
The Church of Jesus Christ of Latter-Day Saints *Piura, Peru*

- Led groups of 18-25 missionaries through weekly strategic planning, resulting in a 50% increase in retention
- Managed housing, furnishings, and financial resources for 80+ missionaries, ensuring cost-effective operations
